MP00 Theme is out - Themes

NEWS_PDF_AUTHOR: hsalazar

NEWS_PDF_DATE: 2003/11/10 21:02:09

Mesa de Pruebas proudly presents the Xoops Community its first theme, a simple, gray-blue theme with a few variations and additions:

- Includes the script for hiding/showing the left/right columns.
- Includes a snappy live clock
- Includes variations on the theme: 760 pixels wide or full screen, left-aligned or centered, with half-width blocks on top or under the main content.

Download RAR version here Download Zip version here Cheers. **UPDATE 19/11/2003**: I've corrected the blocks-in-top bug and added the pertinent code to the styleNN.css file. I also used the shortcut to the background image, so the theme should be easier to emply and more universal than before.
