In [Red Mexico](#) we have created a new theme for XOOPS. This is a premium quality item developed using as a base [XThemes](#) and [Common Utilities](#).

[This new theme](#) has so far unique features that differentiate it from other existing themes to allow better use of the capabilities of XOOPS and modules installed.

Among the most outstanding features are:

- 3 different color schemes
- Settings and Control panel
- Awesome Home page
- Integration with AddThis
- Integration with Analytics
- Using Twitter and Flickr on the home page
- Spotlight fully customizable.

This theme use several modules to function properly:

- Common Utilities
- XThemes
- MyWords
- QuickPages
- contactme!
- Professional Works

You can find more details about [Rounded](#) and purchase on the [microsite](#) we created for it.
