

Oledrion (MyShop) Tutorial coming to XOOPS - Tutorials

NEWS\_PDF\_AUTHOR: Mamba

NEWS\_PDF\_DATE: 2016/1/16 16:38:15

[Oledrion \(MyShop\)](#) is the best and most comprehensive e-Commerce module developed natively for XOOPS!

It was developed originally by **Hervé Thouzard (aka Hervet)** from XOOPS France, and lately it was enhanced by **Hossein Azizabadi (aka Voltan)** from XOOPS Iran.

I am working right now on a tutorial for Oledrion - it is still work in progress, but you can read it already on [GitBook](#)

But it would be fantastic if some of you could [fork it on GitHub](#) and contribute to it, and make it better! 🙏
