This post is to announce the start of the XOOPS Roadmap discussion. The roadmap is going to be set by the XOOPS Core Team for all 8 areas of the XOOPS community: core development, module development, theme development, quality control, support, documentation, product promotion and community relations.

Please read [this thread](#) before joining in the discussion 😊

The roadmap discussion starts with two topics:

- [What to discuss?](#)
- [Core features in 2.1](#)
