
Topics Blocks Module - Modules

Posted by: Hennessy

Posted on: : 2003/11/26 6:14:37

Allows latest/top news in a given topic to be displayed in its own block.

Adapted from Lykos Blocks module. Now works with 2.0.5 with added features:

- Added admin support for altering title character length
- Fixed bug in number of titles to display (now works in Xoops 2.0.5)
- Added more blocks (six topics blocks and one stats in total) to allow for more topics to be displayed
- Changed admin logo to suit xoops style
- Empty blocks no longer displayed

Available for download [here](#) until the module is accepted by the site.

Enjoy.

Adam Hennessy.
