

Lykos Blocks 1.2 - Modules

NEWS\_PDF\_AUTHOR: lykoszine

NEWS\_PDF\_DATE: 2003/12/1 6:53:54

## Lykos Blocks 1.2

This is a complete rewrite of the code, maintaining all features, fixing certain bugs, and adding a few requested features also.

This contains the following blocks:

- x most recent articles in a given category
- x most read articles in a given category
- a site stats block

### ----- Requirement -----

Xoops 2.05 or Greater

### ----- Installing -----

1. Upload the folder inside the zip to the Xoops modules folder.
2. Login to your site as Admin, go Admin -> Modules, install Lykos Blocks.
3. Look for the blocks in Admin->Blocks.

### ----- Upgrading -----

1. You should uninstall and delete all files from any previous version.
2. Follow the instructions for installation above.

### ----- Bugs/Features -----

Fixed bugs in recent articles block that would only show 1 article.  
Added new features found in standard 2.05 news block.  
Changed category entry to a drop down menu.  
Added smarty support to stats block.

### ----- To Do -----

Category block for mylinks and mydownloads?  
Admin for stats, enabling module selection  
Dynamic xoops\_version.php to cater for multiple identical blocks

----- Credits/Thanks -----

Chapi, for the spankingly good new logo  
Henessy , for valuable input

News blocks adapted from blocks in News Module, Xoops 2.05

Download this from <http://lykoszine.sourceforge.net> or here on Xoops.org when I can be bothered to submit it to the DL section 😊

Feedback welcome...
