

Jobs working on Xoops portals - XOOPS

NEWS_PDF_AUTHOR: asinglenet

NEWS_PDF_DATE: 2003/12/15 8:39:39

I'd like to find some hot Xoops developers to sell their services freelance through our new [Assembla talent exchange](#). Next week we will launch this with marketing to IT services buyers. Sign up now at http://talent.assembla.com/sell_services.php to be part of the launch.

We recommend Xoops as the base for professional services Web sites. After trying Xoops and wf-section for my [Assembla](#) Web site, we used Xoops for the [Bio-era Network](#) portal. Infoworld named bio-era.net to their top 100 portals of 2003. We built a new module for bio-era that includes multiple content types with distinct input and output templates, topic tagging, email alert subscriptions by topic, and ecommerce features. And please sign up at talent.assembla.com to work on some new stuff.
