This new xoops 2.0.5 site naccion.org is dedicated to a non-profit organization which is helping the community who lives at housing developments to get organized and to help them solved some of the many problems they face in their everyday lives.

This site was developed with the help of some help of the xoops community, thanks to all specially to ackbarr for the help with the box sizes 😊

This is one site to add to my portafolio, I'm available for professional design of xoops sites at klaussr@650dialp.com
other of my sites: mrch.org and abctyping.com

Regards to all.
