

XOOPS Module Admin Icons templates - Developer News

NEWS_PDF_AUTHOR: Herko

NEWS_PDF_DATE: 2003/12/20 9:50:00

Everyone who is developing a module knows that it comes with a unique administration icon used in the XOOPS admin. Brian Sweeting made a handy layered .PSD file, a .PNG file and found the True Type Font used for these icons, and collected them in a nifty package. Since the original download is gone, I've put it up for download again. [You can download the zipped package by clicking here.](#)
