XOOPS 2.0.5.2 released! - XOOPS

NEWS_PDF_AUTHOR: onokazu

NEWS_PDF_DATE: 2004/1/5 17:51:35

XOOPS Team is pleased to announce the release of XOOPS 2.0.5.2. It includes important security related bug fixes that address cross site scripting vulnerability in the weblinks module reported recently therefore it is highly recommended that all users using the module upgrade to this version. All files are available for download here.

Changes
=============================
- Security fix in modules/mylinks/myheader.php
- Security fix in modules/mylinks/visit.php
- Security fix in modules/mylinks/admin/index.php

For users currently running 2.0.5.1, extract xoops-2.0.5.1-to-2.0.5.2.patch.zip or xoops-2.0.5.1-to-2.0.5.2.patch.tar.gz and just overwrite the old files with the new ones.

#We will be relesing 2.0.6 very soon which includes loads of bug fixes committed since the 2.0.5 release.
