

Windsor Mall Com - Windsor Ontario Community Portal - YAXS

NEWS_PDF_AUTHOR: winds

NEWS_PDF_DATE: 2004/1/15 0:45:24

I just wanted to announce the creation of another community web portal powered by xoops 2.0.5.

This is my first web site made with xoops. Although I experimented too much, tried many xoops modules, and have tried to test XOOPS limits, Windsor Mall turned out to be a web portal that has real commercial potentials.

It means XOOPS is definitely a CMS for professional site builders. All core modules are stable, new modules are innovative, attractive and easy to fix, search engine friendly set up is ... (apache rewrite) possible, and xoops community is one of the most productive CMS communities.

Thank you to all core team, theme and module developers and the xoops members for creating this great CMS!
