Hello world

The XOOPS Core Team has created several teams to meet the needs and demands of the community as best as possible.

I saw myself entrusted with the responsibility for the 'XOOPS Theme Design' Team.

We have created a new website dedicated for the support, design and development of XOOPS themes and graphics. This website will be the official portal for XOOPS Themes, including comprehensive documentation and the best XOOPS theme library ever realised.

If you are a designer, creator or writer? Give your experience in graphic design to the whole XOOPS community and join the XOOPS Theme Design Team! Drop me an e-mail if you're interested.

thanks
