

Articles version 0.06 released - Modules

NEWS_PDF_AUTHOR: AndyM

NEWS_PDF_DATE: 2004/1/30 8:04:14

Version 0.06 of the "Articles" Xoops module has been released.

The main changes since the last public release (v0.04) are:

- o Articles are now searchable via the Xoops search interface. Titles, descriptions and actual article text is searched.
- o French and German translations added (thanks to Hervé Thouzard and Frank Black).
- o Most of the pages are now localised to make language translations easier.
- o New "printer friendly" page added.
- o Xoops codes now supported for article text - for people who prefer to rely on HTML entirely, this can be "turned off" in a configuration file.
- o Cleaned up a bit of HTML.

Please see the [download site](#) for the current, and older versions.
