Here in Japan. XOOPS gets some major press in Linux World Magazine March 2004. There was a 20 page spread about how to install XOOPS on a Linux box. Here is a scan of the magazine cover.

You can download the full article here -> [Scanned Images Archive](#)

Sorry the whole thing is in Japanese. They (Linux World) went into detail how to install MySQL/PHP for XOOPS 2.0.5.1

The files were also included in the CD that comes with the Magazine. Only goes to show, when you have a great package, the world takes notice. Great JOB to the XOOPS teams!
