- Some fixes in admin/index.php

#### xoopspolls

- Fixed color bar selections not working when creating/editing a new poll (Onokazu)

#### xoopsmembers

- Fixed 'more than X posts' not working when set to 0 (Onokazu)
- Added a new language constant to language/english/main.php (Catzwolf)
- Removed invalid HTML tags in templates/xoopsmembers\_searchresults.html (Catzwolf)

For users currently running 2.0.5/2.0.5.1/2.0.5.2, extract xoops-2.0.5-to-2.0.6.patch.zip or xoops-2.0.5-to-2.0.6.patch.tgz and just overwrite the old files with the new ones. After that, 'update' the system, newbb, xoopsmembers modules from the module admin section to apply the changes made to template files of these modules.
