

## Incama's "GrayMeetsPurple" theme. - Themes

Posted by: incama

Posted on: : 2004/2/8 15:52:22

New theme from [incama.nl](http://incama.nl).

Theme comes with:

- Image Templates for the logo and topic images (PSD and CPT files),
- New logos for the Download and Weblinks sections,
- Template set,

We've removed the rightblock definition (again!), so remember to edit your block positions in case they are on the right side.

Download the theme [here](#).
