Welcome to the world of "Sub-Atomica"... Hot on the heels of the success of the XAqua theme I made, which has already notched up over 100 downloads in 2 days, comes a new theme for Xoops: "Sub-Atomica Variation 1".

The Screen Shot and Download of this theme can be found on my "[Xoops Themes Downloads Page](#)".

Included in the zip file are some notes, regarding changing the background color of the body of the html and also an added links class which allows you to post links that are visible in the surrounding blue/purple border.
