Hey Everyone,

I finally moved my site .EclipseMagazine.com from PN to Xoops.

I did lose all my forum posts, which where about 10,000 posts, and all my community reviews, which was only about 20 - I'm coming to the conclusion that most people don't really want to post reviews, or articles, just come and read and leave (mooch - grrrrr). At least my users anyway, as I average about 600,000 hits a month to the site, yet very few will respond to a column.

If you want to see what can be done with Xoops and a little creativity, check it out. [Here](#)
