

Advanced Blog Module: Testers Needed - Modules

NEWS\_PDF\_AUTHOR: dyoo78

NEWS\_PDF\_DATE: 2004/3/25 5:34:47

Hello Fellow Xoopers,

My team and I have created an advanced blog module. We need beta testers to work out the kinks. Once testing is complete, we'll release the module with install instructions.

Some notes on this blog module:

- 1) It's a loosely integrated port of [Roller Weblogger](#).
- 2) It allows users to select themes and setup blogs on the fly
- 3) Every blog has an RSS feed, comments ability and many more features.

You can test it [here](#).

Cheers,

-dyoo78
