I am trying to get a list together of all the online gaming websites using Xoops, so we can look at each others websites and share idea related to Xoops and online gaming.

I started a forum thread in the Xoops Members lounge, located here:

https://xoops.org/modules/newbb/viewtopic.php?topic_id=18222&forum=3

If you could add you name and website to the list, it would be greatly appreciated

I am Tabasco from Red Hour <http://www.red-hour.net> we play Raven Shield and Call Of Duty

Thanks
