I have, per my promise, created two venues for those who manage IT Management and Software Quality oriented Xoops Sites and would like to share links and information.

You may sign up to become a webring member at:

<http://q.webring.com/wrman?ring=informationtechn&addsite>

You may contribute your site to a Yellow Pages directory at:

<http://eirenicon.org/modules/xdirectory/>

btw. I will make the MySQL tables of the Yellow Pages available as a download from my site (in the event that you would like a copy on your site(s)).
