"Articles" Module Hack -- navigation system - Hacks

NEWS_PDF_AUTHOR: mrtwice

NEWS_PDF_DATE: 2004/4/7 13:03:55

This is a modification of the Articles Module by Andrew Mills.

I have added a block that replaces the XOOPS main menu and allows you to link directly to articles. The idea is that you can create a navigation system that links to the articles and thereby mimic the behavior of a web site that only has static content. This modification does not limit the use of Articles in any way, it adds to it.

Check it out!
