

Using XOOPS Multilanguages in your theme ! - Themes

NEWS_PDF_AUTHOR: marcan

NEWS_PDF_DATE: 2004/5/5 16:23:25

With the release of [XOOPS Multilanguages v1.3](#), some of you asked me how they can modify their theme to make it multilingual.

This requires a little work but it can easily be accomplished. You can find the complete tutorial here : [Using XOOPS Multilanguages in your theme !](#)

If you have any comments or suggestion, please feel free to post theme on my site !

Cheers 🍷
