
Change languages in your theme : Another XOOPS Multilanguage tutorial - Themes

Posted by: marcan

Posted on: : 2004/5/8 10:57:01

With the relative success of [Using XOOPS Multilanguages in your theme !](#), I decided to write another tutoial about [XOOPS Multilanguages](#).

This one will guide you to the process of putting language flags in your theme, like on the top right corner of the following image :

You can find the complete tutorial here : [Change languages in your theme](#).

If you have any comments or suggestion, please feel free to post theme on my site !

Cheers 🍷
