Due to some heavy undercover pressures , I have released the official [\[WF\] WolFactory Theme](#). This is one of my favourite theme (until the next one, of course... )

You will be able to customise this theme very easily; only a few pictures to change to adapt it to your site thematic.

Keep in mind this theme has been optimised to enhance your webranking (key words and meta tags repetitions included for each and every published pages).

You can see it on [WolfFactory](#) the xoops support site of the [Wolf Pack Clan](#). Feel free to visit each and every productions.

Enjoy!
