Due to the diligent and dedicated work of our Core Development Team and the Module Development Teams, the XOOPS project is **ranked 6, and today even 5 in the** most active projects list **on SourceForge.net!** Kudos to the dev teams and all the beta testers and bug and hack submitters! In this list, the XOOPS project leaves esteemed projects such as the Azereus BitTorrent Client and phpMyAdmin behind it in activity. I must say that I am very proud of what XOOPS ia achieving at this moment! We all have become a major player in the open source world! Thank you everyone!
