[WorkEv \(Work Evolution\)](#) is a community dedicated to the art of managing work online and real-time.

We cover management methods, tools, resources, and actual projects. Join us as we learn how to mobilize distributed groups to get things done better, faster, cheaper, and on an epic scale.

OnLine and RealTime is how the Xoops team works. Please contribute your knowledge and experience.

The site is in a very early phase of its evolution and I look forward to building it up as Xoops also grows.
