Intowesee.Net has been XOOPSed!!

Intowesee.Net previously use PHP-Nuke, but now I decide to change to XOOPS. I managed to transfer all my 1400+ users, even though I had minor difficulty in tweaking the php script to convert the users to XOOPS.

Intowesee.Net is a portal where Malaysian users can share articles & thoughts with each other. Hopefully it will be a wonderful website for all Malaysians out there.

[Intowesee.Net](#) has been XOOPSed!!
