

Evennews Bug Fixes #2 - Hacks

NEWS_PDF_AUTHOR: tl

NEWS_PDF_DATE: 2004/8/17 13:21:44

Until ackbarr releases 2.02 version (hopefully very soon 😊), anyone uses the newsletter module on a production site is recommended to update.

- 1) fixed page navigation to show all newsletters in the archives
- 2) hided newsletter admin email for security measures (preventing email harvesting and spamming)
- 3) removed search function in the archive template file (for now, as it is not working)

The whole package and patch could be downloaded from <http://xoops-tips.com>

cheers,

tl
