

Emilsoft Software - YAXS

NEWS\_PDF\_AUTHOR: emilsoft

NEWS\_PDF\_DATE: 2004/8/24 3:36:32

Emilsoft Software is a developer of Freeware Online and Windows Based Software and Solutions. Our Flagship product lately has been FireTweaker XP, a Tweaking software for Mozilla Firefox.

We have been very happy with XOOPS, after trying out several other CMS Portals, we decided to go with XOOPS, because we think it's easy-to-use, flexible, and has a solid and bright future.
