

Meta-Generator module v1.00 for Xoops 1.0 RC2 - XOOPS

NEWS_PDF_AUTHOR: Anonymous

NEWS_PDF_DATE: 2002/3/3 21:34:46

Replaces Ref Hack v2-4.1

This version modularizes the whole hack. Complete with translation files, documentation, and visual interface.

New:

Import word files and merge them into the wanted/unwanted list.

Easily move words back and forth inbetween lists or add/remove words.

Comes with 380 preconfigured common words :o)

Improved how titles, cat names and descriptions are handled in DL's and links sections.

Damn..and me who just liked that simple hack at the beginning, now barely a few days later end up with a whole frikkin module..yikes :o)

But i'm lazy n like doin things visually: Point n Click POWWA

Also tnx again to frxoops.org for the original idea!

You can [get it here](#).
