

New Module: AbiBase - Modules

NEWS\_PDF\_AUTHOR: solaris365

NEWS\_PDF\_DATE: 2004/9/15 20:48:51

**AbiBase** is a small module to keep track of information about the school, companions, teachers and class meetings of the graduate class (german: Abitur or Abi) in order to make it more easy to keep in touch with old school friends. For the moment it is provided with English, German and Italian language files. *Be sure to read the readme.txt file for notes on the installation.*

You can [download it form my project page](#). See: AbiBase.

There is also a [module development page](#).

Comments and suggestions are welcome!
