MaxMZone proudly releasing the first public use Advanced Xoops Themes.

IceBird which is the preview release version and this is lightly to be a finished theme. Try it out and give a comment at the MaxMZone community (forums).

You can download this theme at Themes/Skins section at http://www.maxmzone.com

Note: There's places you can edit the image and menu, the top blank header and the top menu just right above the wide short blue box (LoginBar). Recommend "The GIMP" at http://www.maxmzone.com for information.

Thank You!
