phpmyadmin 2.6.0 rc2 released! - Modules

NEWS_PDF_AUTHOR: Blueshadow

NEWS_PDF_DATE: 2004/9/19 14:35:25

Hi all,

I have released phpmyadmin 2.6.0 rc2 for xoops. I have tested this version on the latest xoops core and it works perfect. Hopefully, it works on older versions also. This is a release candidate and the final versiond of 2.6.0 doesnt look like its out.

Feel free to use this. :)

You can see a screenshot here and you can download it here. Have fun.

Please report all bugs tohttp://www.phpmyadmin.net
Credit goes to the author that coded the config file. Thanks!
