

Xoops Teamspeak Updated!! - Modules

NEWS_PDF_AUTHOR: talunceford

NEWS_PDF_DATE: 2004/9/22 13:26:21

I finally got around to updating the Xoops Teamspeak module. It now has a block that will display the servers that are online, along with the users that are on each channel. It also allows you to login to your teamspeak server via the block. Just click on the channel you would like to join and a pop-up box appears.

All users are urged to update. Make sure that you do not change the prefix of the db tables. The block depends on the tables being **xoops_ts2_**. If you haven't downloaded it before, just hit our downloads to get it. You have to register to download though. If you have any questions, please feel free to post them on my site.

Thanks, and enjoy!

(Website is <http://www.tsw.n.com> btw, Ed.)
