After months of efforts and hard work, I am pleased to give you the final release of **SmartFAQ 1.0** !

SmartFAQ is an advanced Question and Answers management system for your XOOPS site : it provides interactive features that allow the Web administrator and site users to post and respond to questions and answers.

The module supports subcategories, has a fully integrated permissions system as well as a complete notifications system. It also features an innovative admin interface introduced by Hsalazar on his Soapbox module, as well as the usefull Blocks and Groups administration of GiJoe.

If you are not yet convinced by SmartFAQ's features, you are welcomed to visit SmartFAQ's demo site.

You can downoad the package here :
- SmartFAQ 1.0 Final : Zip version [285 kb]

All along the developpement process, we were focusing on quality. Well, quality module comes with quality documentation ! Carnuke has achieved a hell of a job writing an excellent documentation for this module ! This documentation can be accessed directly in SmartFAQ, via the **Help** link in the top of each page in the admin side.

You can also download the help package from here :
- SmartFAQ Help Files : Zip Version | RAR Version

The module also introduces an **About** page in the admin side were you will find links to the official SmartFAQ developpement project at the developers's forge, as well as link to submit bug or request features.

I could not have done this module without the help of many other people. In the **About** page of the module, I explain more deeply the work of all these people. However, I would like to respectfully thank all the people who have worked with me in this project. Among those people, special thanks to : w4z004, hsalazar, Carnuke, Mariuss, Mithrandir, phppp, GIJOE, outch, And Xvitry. **Thank you !!**

Finally, the release of SmartFAQ also bring the opening of a new site : SmartFactory. This site is the home of the 'Smart' modules and of different special XOOPS hacks. You can download

the latest packages, participate in the forums and see some of our module live ! !

Now, enough talk ! Enjoy SmartFAQ !!!!!!!
