

Xconv - the Xoops Iconv package - Modules

NEWS_PDF_AUTHOR: phppp

NEWS_PDF_DATE: 2004/9/30 4:31:44

Xconv a configurable character encoding conversion package for those who have no PHP iconv module. It also allows more effective conv functions even if you hav iconv installed.

The Chinese pack has been included in the module: GBBIG5, (GB,BIG5) (UTF-8, UNICODE), (GB,BIG5)-> Pinyin

>>>>[Download the XCONV](#)
