

AdminArea Revisited beta1 released - Hacks

NEWS_PDF_AUTHOR: ralf57

NEWS_PDF_DATE: 2004/10/14 10:49:23

Hi xoopsers,

i've tried to give a new,fresh look to the good-old admin area interface.

I've redesigned the Cpanel from scratch and added new features.It's up to you discovering them... 😊

This release is still beta and has bugs and messy code.

I'd like to receive your feedbacks and suggestions here via comments or to the upcoming project on dev.xoops.org

You can download it [here](#)

ATB,ralf.

PS:back-up your files before applying the hack!!!
