

Lossless Live Links - YAXS

NEWS\_PDF\_AUTHOR: DigitalBoots

NEWS\_PDF\_DATE: 2004/10/14 22:24:18

XOOPS setup was incredibly easy, and my directory of "lossless live links" is up and running. The links directory is a resource of places on the 'net to download live music in lossless format (shn, flac). Link categories include: Direct download and FTP, BitTorrent tracker, and Direct Connect hubs, as well as a section for general lossless audio resources. Note, these links are to non-commercial audio sources! Support the bands - buy their music and go to their shows. My contribution to the fans.
