Just opened a brand new DVD information site.
The main aim being to network and list all DVD/video Stores Australia wide and link/list to all DVD information sites locally.

<http://www.aussiedvd.com>

A place to find all relative info on DVD stores/online shops etc Australia wide. It is just new and adding links everyday. Eventually listing "ALL" DVD/Video stores Australia wide and list price changes and specials in stores Australia wide.

Of course it will need community support from all states/towns around Australia to keep it all up to date.
