We are proud to inform you that XOOPS now has **Yet Another Web Site** : Cricricriollo.com is the official web site of Criollo, an hispano-american band offering original music that could trully revolutionize Spanish Urban music across the globe.

The site is multilingual (english, spanosh and french), has a good implementation of the Edito and xcGallery, as well as some other traditionnal modules.

As usual, constructive comments are always welcomed !
