Well, it took a few posts and a lot of puzzling, but he's online. The new site from the Dutch Foundation on Trauma Nursing!

There are a few articles to add, and some older news items. After that I plan to implement a photo gallery module, but for this moment I am satisfied.

Thanks to all the XOOPSers that helped me out on the forums, and the folks who made the user and install guides!!

Visit the site at <http://www.trauma-nursing.nl>

Greetings,
