

Xoops Sites Directory Relaunches, Sort of :) - YAXS

Xoops Sites Directory was originally intended to be a reciprocal link directory for the Xoops community. To be included, your sites must be Xoops powered (some conditions apply) and have a link back to the directory.

As majority of you have decided "linking back" was too much 😊, so we have made the linking back as optional. So please list with us, and hopefully we can categorize all of Xoops sites out of there.

The Directory is intended to categorize Xoops sites (mirrored DMOZ categories), not for popularity rankings. 😊
