October has turned out to be the best month ever for XOOPS - statistically.

On SourceForge.net, the statistics show more than 1½ million page views in October alone and more than 100,000 downloads.

Since the xoops.org facelift, we have had a steady 50,000+ daily pageviews. Since October 23rd, we have been in the top-10 of active projects and we are the 15th most active project in all of October.

This is a great recognition of the work done here on xoops.org - both the development of XOOPS and the support and guidance found in the forums.

A big thank you goes out to everyone in the XOOPS community

Keep XOOPS'ing 😊
