The Netquery Demo/Testing site is now online. Be one of the first to test new features to be introduced into Xoops Netquery!

The current production release of Netquery is 1.2. We are now testing v1.3 on our demo site.

New Features:

Multi-Whois Lookup (Admin selectable)

Port Table Lookup (Know what vulnerabilities affect what ports)

We are always receptive to feedback from users. If you find a bug, or would like to make a suggestion, please let us know through our contact form.
