I am pleased to announce a new XOOPS website [Envision-IT](#). This site uses what I think is an innovation in style sheets:

- All Left & Right Menu Blocks appear on the Right hand side (right float)
- Center Left(CL) and Center Right(CR) Blocks spilt the top half of the Main Text area (leftfloat)
- Center Center Block follows below the dual CL/CR section (leftfloat)
- the theme is set to display with a 900px width

The theme is available for download on the site itself (creative common license)... see the Downloads area.
