

xGreen - A New theme with Load meter - Themes

NEWS_PDF_AUTHOR: vinit

NEWS_PDF_DATE: 2004/11/22 8:57:17

Hello,

I created a theme on the basis of x2t theme, or i should say just modified x2t a bit to get a new look. I hope you would like it.

Added a feature called "Loading", until the site gets loaded a loading image will be seen showing that site is loading.

Please feel free to use it and do let me know your views.

This theme works correctly with x2t template.

[Download xGreen Theme](#)

Note: This is my first theme, there can be few bugs in here and there. Though i have not noticed any as such.
