[SeeTheGlobe.com](#) is a site where you can compare flight, hotel, car and vacation prices at online booking sites. You are welcome to read travel reviews and blogs. There is also a quality travel video selection. Five percent of profits from the site will go to a charitable institution that gets most poll votes for that period.

Site built with XOOPS 2.0.7.3.

Multiple modules were used:

News, Contact, Forum, FAQ (About Us), Links, Spotlight, Headlines and Polls. WordPress XOOPS port is the blog. WF Downloads were used (and modified) for the Travel Reviews and Video Catalog sections.

Templates were modified liberally and the theme was created from the default theme with multiple modifications.

Comments, recommendations and site visits are welcome !!!
