We have recently translated our Google Search for other CMS's to XOOPS! This is a full featured search engine that is found and in use at Google!

Try it out at [xoops.ibdeeming.com](https://xoops.ibdeeming.com)!

The Add-on features a quick search block that includes searching the WWW as well as the hosted domain. It has advanced search features such as - language, format, occurrences, specific domains, and the Googls Safe Search!

This is a great add-on for your site, and we hope you enjoy it!
