Envision_IT Theme - Themes

NEWS_PDF_AUTHOR: rabideau

NEWS_PDF_DATE: 2004/12/6 7:39:01

Hello all,

Please feel free to visit and comment upon my newest theme for Envision-IT.org

The site may be reached at:http://envision-it.org

The theme may be downloaded here.

This theme does a few non-standard "things":

1. In the center text body section (System-->Admin--> Blocks) the Center Left and Center Right blocks appear at the top of each delivered webpage (forced by theme design). This allows dual columns to appear at the top of your web page; the single Main block will follow below all Center Left and Center Right Blocks.
2. The site is set to display at a width of 1000 pixels.
3. The side Menus are combined into a single right-hand menu.
4. All content blocks are contained in theme.html.

Enjoy!
